Biblical perspective on aliens

Amen. Thank you, Daria. Aliens, full disclosure, welcome everybody. If you're joining us on um YouTube or for those of you who are joining us for the first time today, we're always happy to have you. Uh why am I doing this lesson? Well, I'm going to say that in a moment here in the next slide, but I think the reasons are obvious, right? Um, as of late, we have been inundated in the news about this so-called full disclosure about aliens. Stephen Spielberg, yes, is coming out with a movie called Full Disclosure. And I just think we have to get ahead of this. We have to have a biblical understanding of what's happening in our world. So, with that in mind, let's jump in. This is a lesson that I did many years ago that talks about giants. And you're probably wondering, what in the world 1 minute, 1 second does this have to do with the lesson? It does have a lot to do with the lesson, and you'll understand why in a moment. Uh, but if you want to know more about uh, Nephilim, which is in part what we're talking about today, then I encourage you to look this video up on my channel. Of course, I'll leave a link to it in the um in the description of this video. Okay. So, it's important for you as a believer to choose your world view.

The importance of worldview

What do I mean by that? Well, you either have a biblical worldview or you don't. Some people like to mix their world views. I know of a handful of old friends of mine that like to embrace the biblical worldview, but when it doesn't make sense, they switch over to the scientific worldview or, you know, all all the world views that are out there. You have to choose what world view you're going to hold in your life. Before we even begin discussing aliens, UFOs, disclosure, or unexplained phenomenon, every person in this room and every person watching this via YouTube must first decide something that's far more important. What world view will you use to interpret what you're seeing in the world around you? Will you approach this subject through the lens of modern science alone? Will you approach it through internet conspiracies and speculations or will you approach it through the scriptures? Because your worldview determines your interpretation as well as your acceptance to anything I have to say today. Two people can look at the exact same phenomenon and arrive at completely different conclusions depending on the lens through which they see the world. scientific world often begins with the assumption that humanity is an accidental product of evolution 3 minutes, 1 second on a random planet in an endless universe. Therefore, unexplained phenomenon are naturally interpreted as extraterrestrial, I'm sorry, as extraterrestrial life from distant worlds. The conspiratorial world view often approaches the subject through fear, secrecy, hidden governments, speculation, which can quick quickly lead people into obsession, confusion, paranoia, and deception. And it has. But the biblical worldview begins somewhere entirely different. Scripture does not present the universe as random.

It does not present Earth as insignificant. It does not present mankind as accidental. The Bible presents earth as the stage of Yahw's redemptive plan. Remember that word stage and mankind as the imagebearer of the creator himself. And because of that, scripture already expects the existence of supernatural powers, heavenly beings, and rebellions in the unseen realm. Lying signs and wonders, and global deception. It's already in the text.

Discernment in the last days

The danger of approaching this subject outside of scripture is that people become vulnerable in interpreting spiritual realities through purely materialistic methods. The Bible warns us that deception will increase in the last days. Not

merely false teaching, but signs and wonders and power manifestations that appear convincing enough to deceive the whole world. If we do not begin with a biblical framework, we risk interpreting spiritual rebellion as extraterrestrial enlightenment, fallen powers as advanced civilizations, and deception as revelation. The issue is not whether strange phenomena exists. The issue is whether we possess the discernment to interpret them correctly. Because scripture already warned us that not everything descending from heaven is from God or is from the truth. The hosts of heaven. What are the hosts of heaven? These things that the scripture mentions, angels, archangels, cherubim, living creatures, seraphim, watchers, sons of God, these are all beings that are outside of our dimension. Dark spiritual beings include Satan, evil spirits, demons, unclean spirits, principalities, powers, and rulers of the air, and Nephilim. And that's the topic that we're going to be discussing mostly today. So what point am I making? Well, as I said in the opening introduction there, the Bible already identifies supernatural powers, supernatural beings that exist in a realm that we cannot see. It's a veil that we cannot see through that Yeshua will tear away when he returns. And then our eyes will be able to see everything that we up to that point had not been able to see. As of late, you have been seeing things like this um in your Facebook threads or your YouTube threads or wherever social media that you choose to watch if at all. And if you haven't se

en them on social media, then you've seen them in the news. These declarations that the truth is coming on and on and on has been really hitting us crazy as of late. things like this that you see in the news, showing you pictures, released pictures of so-called UFOs from outer space that people have been talking about for ages like this secret UFO briefing, alien warning to pastors. I wanted to show this to you. It's a friend of mine, Doug Hamp, who wrote about this. Oh, I don't know. I guess this book is 13 or 14 years old now. Ironically, the things he writes in this book, we're already seeing unfold. So, I wanted to encourage you as a watcher of this YouTube channel, whether you think you like Doug Hamp or not, this book is is really awesome. He does a really good job, a very biblically sound job as to the origins of these things and what's going to happen in the future. So, I encourage you to pick that up if you can online.

Genesis 1 and creation order

For many theologians, scholars, teachers, Genesis 6 has become a theological fault line. We're going to look at Genesis 6. The moment the text speaks of the sons of God, giants, corruption, and beings crossing ordained boundaries, many retreat into symbolism, metaphor, or alternative explanations because the plain reading forces them to un into uncomfortable territory. Yes, it does. Yet the biblical narrative does not present the pre flood world as ordinary. It presents it as a world invaded by rebellion, corruption, violence, and supernatural disorder on a scale so severe that Yahw brought judgment upon the entire earth. What causes many to stumble is not merely the subject of giants or heavenly beings, but the implication that the spiritual realm can directly interfere with humanity in ways modern religion has been trained to dismiss. To even approach the subject honestly requires a person to suspend their disbelief long enough to allow for the possibility that the supernatural world described throughout scripture is even real, active, and capable of interacting with this physical world in ways that challenge modern assumptions. There is a verse in Matthew 24 where Yeshua says, "But as the days of Noah were, so also will the coming of the Son of Man be." We're going to explore the days of Noah in this lesson to try to understand what it's pointing to in our future. And I want to start by asking you all a question. If I were to ask you what you believed to be at the center of the universe, what would you say? What sits at the center of the totality of the universe? What does the universe circle around? Is it God? Is it a great power source? Is it a massive sun? Is it a black hole? What? How would you answer that? And I want you to answer that to yourself right now. Reg

ardless of whether you're here live with us or you're on YouTube, what what would your answer to this question be? Your world view determines your answer. Okay? And I want you to remember that as you answer this question, however you answered that question, you have to realize that your world view helped you to arrive at that conclusion. 11 minutes, 1 second Genesis 1:1, the very first verse in all of scripture. In the beginning, Elohim created the heavens and the earth. I bet 80 to 90% of the human population in the United States could probably tell you that phrase. Just ask any Joe Schmo on the street, "Hey, Mr. Schmo, can you tell me what the very first verse of the of the Bible is?" He

would probably be able to tell you this because it's in our brains. There's a lot to it that we don't understand. This single verse establishes several monumental truths at the same time. First, science recognizes that the universe around us requires three fundamental components for existence and through it establishes all things. What are those three things? Time, space, and matter. And in this very first verse, we see them all. In the beginning, time, heavens, space, earth, matter. So here in this moment, in this verse is when the proverbial clock began to tick. Before this moment also a measure of time, nothing existed. No space and nothing in space. And because there was no time, a person could not say or we cannot say that there was a when Yahw was or a where Yahw was. Because before this there was no when and there was no where. There was no before, no after, no passage of moments, no measurable existence as we understand it. Yah simply is. Hence his declaration to Moses in Exodus 3 when he says, "I am eternal outside of time, outside of space and creation itself. It's important

for us to understand that the universe is not eternal. Matter is not eternal. Time itself is not eternal. That's an important thing for us to grasp in a biblical worldview. What is Genesis 1:1 tell us? It tells us that there was a beginning. There was a beginning when everything that we know and experience through our senses, including time, had a beginning. So this single verse destroys the ancient pagan idea that the cosmos always existed and also confronts modern naturalistic ideas that matter somehow selfgenerated or somehow always was.

Earth at the center

Earth was not seated by aliens. That's the predominant message that you see not only in this most recent quote unquote revelation of truth that's happening around us today, but turn on any sci-fi show, sci-fi movie, alien movie, I don't care what it is, and there's dozens of them. Almost all of them at some in some way, shape or form tells us that Earth was seated by higher beings millions of years ago and the time is coming when they're going to come back and interact with us now that we've advanced to a certain stage in our progression. No, this is patently false. If you embrace a biblical worldview, we cannot be deceived. Now, do I think the people in this room believe that? No, I don't. But there are many who do believe this. There are many who are following the narrative that's going out today about these beings. And second, the verse above, Genesis 1, divides reality into two categories. What are the two categories? Well, it's simple. There is a creator and there is his creation. Those are the only two categories that we can arrive at when we read Genesis 1:1. Nothing in existence belongs in the same category as Yhovah. Not angels, not stars, not spiritual beings, not humanity, not the universe itself, and certainly not little gray men. Everything besides Yhovah is created and therefore dependent upon him. So, what's the answer to the opening question? Tim, do you have your microphone on? And can you tell me what you think the answer to that question is? Um, I don't really have an answer, Ed, to be honest with you. Here's the answer. Earth. Earth is the center of the universe. And you might think, what? How is that possible? Our little earth orbits around the sun and that sun orbits around a galaxy and blah blah blah blah. Really? Is that what you believe? Or do w

e believe scripture? Genesis 1, the then Elohim said, "Let there be lights in the firmament of the heavens to divide the day from the night, and let them be for signs and seasons, for days and for years, and let them be for lights in the firmament of the heavens to give light to the earth." And it was so. What can we get from this verse? What was already there before this happened? Before this happened, earth was he had already created the earth. As a matter of fact, scripture tells us that earth was the first thing material thing that was created and what we know as the universe was formed around us. Which world view do you have? Is the earth and the moon orbiting around the sun which is then orbiting around a bigger sun or a bigger galaxy? No, I didn't put it in this lesson, but the scripture teaches that the exact opposite happens. That it's the sun that orbits around the earth. My wife is over here grinning that I'm even saying those words. But listen, let's get everything out on the table. We are either going to embrace what scripture tells us or we are going to embrace what science wants us to believe. And we already know how trustworthy science is, right? Science wants us to believe that Earth is billions of years old. and that man and dinosaurs never live together. Well, that contradicts the the Genesis story. We have to choose which world view we are going to embrace. Joshua 24. And if it seems evil to you to serve Yhovah, choose for yourself this day whom you will serve. Whether the gods which your

father served, that were on the other side of the river, or the gods of the Amorites, in whose land you dwell. Choose. You're going to either choose the God that you serve, or you're going to choose what science says. There is no in between. Now, I believe a rational

A person who embraces science will be the first person to tell you that science actually supports what is in scripture. Unless you draw a line down between them in such a way that prevents a person from looking through things at a through a biblical worldview. And that's what a lot of scientists do. You're going to see one here in a moment. The order of events in scripture is absolute. The creator must be beyond time. He must be beyond space and matter in order for time, space, and matter to be created. Stop and read that again. Our God must be beyond time, space, and matter for time, space, and matter to even have been created. If Yahw is not beyond time, space, and matter, then 21 minutes, 1 second space came first. Which means that Yahw is not only a product of this space, but subservient to it as we are. Choose your world view. Colossians 1, he is before all things and in him all things consist. He is before it all and everything that exists came as a result of him being before all. John 1 says the same without him nothing was made that was made. Isaiah 45, I form the light and create darkness. I make peace and create evil. I, Yhovah, do all these things. So when John says, without him nothing was made that was made, nothing means nothing, including evil, that one verse right there demands its entire lesson. 22 minutes, 1 second And maybe we'll do that in the future so we can better understand it. But all things consist through him. So again, you must choose your worldview. You cannot have a little bit of God and a little bit of science when the two stand in direct opposition to one another. At some point, every person must decide which authority will define reality. Either scripture interprets the world around you or the world around you will interpret scr

ipture for you. And by the way, both world views require faith. It requires faith on my part and yours to look at the things in scripture and embrace them as truth. You weren't there. I wasn't there. But it also requires a great deal of faith for a person of science to believe that everything came from nothing. Both require faith. It's just a matter of who you're going to put your faith in. And here's your choices. It's going to be a worldview of order as we see in scripture or a worldview of complete confusion. And what do I mean by that? Well, then who did in a nutshell Dawkins is going in circles when confronted with the idea of the origin of the universe. He keeps going back and forth saying there there was no designer and then concludes at the end that there may have been a designer that the designer just couldn't have been God. It's the confusion that you run into when it comes to this topic. Well read, well-educated men like Dawkins who refuse to acknowledge believers who hold to the truth of scripture. We look at these learned, wise men who have more degrees than they can count and shudder at confusion, cosmic corruption.

The fall and the image

The earth is not accidental planet among billions. Scripture presents earth as the divinely ordered center of Yah's redemptive narrative center and humanity as his imagebearing creation. Every ancient rebellion and every future deception revolves around corrupting that image and replacing Yah's authority and to redefine what mankind is. Genesis chapter 1, we see that the Father says, "Let us make man in our own image, according to our likeness, and let them have dominion. Let them have the rule over what was created, over the fish of the sea, the birds of the air, over the cattle, over all the earth, and over every creeping thing that creeps on the earth. So Yahw created man in his own image. In the image of Elohim he created him. Male and female he created him. And this is the issue at hand as we're talking about this future incursion that we're going to see unfold before our very eyes as it pertains to little gay men because it's happened in the past. And we're going to look at that here in a moment. What is the issue? 26 minutes, 1 second The issue is that the father has given man dominion over all that was created. He made Adam and Hava, king and queen, over this beautiful thing that he created. Rage against the image and war for dominion or rule began in the garden. Who gets what? Who rules what? And as I said, every rebellion in scripture, including the fall, is the direct result of this moment in human history. And as a result of the first rebellion, we see this curious verse in Genesis chapter 3 because you have done this. What is he talking about? And who is he talking to? He's talking to the enemy. He's talking to the serpent who had just caused the fall of man. And in the fall of man basically handed the keys of the kingdom over

to the serpent. And t

he father says in Genesis 3, "Because you have done this, I will put enmity between you and the woman and between your seed and her seed. He shall crush your head, and you shall bruise his heel." His seed. We understand what seed means. I think we looked at that last week or the week before. Satan has seed. Because man bears Yahw's image, humanity becomes the target of corruption. Satan cannot create life independently, nor can he overthrow Yahw directly. Amen. So the attack moves toward the corruption, defilement, and deception and destruction of the imagebearers themselves because Yahw said it would be through their seed that he would be destroyed. So think about that for a moment. You're Satan. You're the serpent. You caused the fall of man. And as the result, the father tells you that her seed is going to crush him. If you're Satan, if you're the serpent, what are you going to do about that? How are you going to stop that? Well, as I said, the goal became to somehow infiltrate the image. If the image would destroy Hassatan, then the image needs to be corrupted. And that's what we see in Genesis 6. It came to pass when man began to multiply on the face of the earth and daughters were born to them that the sons of Yah saw the daughters of men that they were beautiful and they took wives for themselves of all whom they 29 minutes, 1 second chose. And Yhovah said, "My spirit shall not strive with man forever. For he is indeed flesh, yet his days shall be 120 years." And then Moses writes this phrase seemingly out of nowhere. No support for the topic almost as if he assumes the reader is going to know exactly what he means. There were giants on the earth in those days and after that when the sons of Yah came into the daughters of men and they bore children to them. T

he language of the text and the structure of the text tells us that these children that were born to them were the direct result of this mating between the sons of Yah and earthly women. And those men were mighty men in those days, men of renown.

The days of Noah typology

This is the moment when the enemy began his campaign to infiltrate the human genome and corrupt the image of Yahw in man. The first book of Enoch claims that this corruption actually began in the days of Jared, the fifth generation from Adam, nearly 1,200 years earlier. Hence, his ability to write so much about them. So when Moses says there were giants in the earth in those days and after and also afterward, he's not telling us that here in Genesis 6 is when this event happened. He's just telling us that at this point in time in history, the giants were already there in those days and afterwards. Well, how long had they been there? Well, if we trust the histo book of Enoch, then it's safe to say that by the time Moses wrote this, they had been on the planet nearly 1,200 years already doing what? What were they doing? Well, we're going to talk about what they were doing, but it's important for us to understand this as it pertains to aliens. I know this is going to all come full circle in the end here, so stick with me. This is typology. You and I know what typology is. We've talked about it adnauseum in this le in our lessons. Typology is something in the past that's pointing to the future. It's something like say Moses being a type of Christ and Christ is the antitype. He is the fulfillment of that, the perfect fulfillment. And the anti-type is always greater than the type. This story of Nephilim incursion into the human genome is typology. It's there to tell us what's going to happen in the future. Just as Yeshua said, in the days of Noah, so shall it be in the days of his return. So we have to com we have to connect those two together to try to get an idea of what's happening today. If we are to properly understand what's coming, we must understand the first time thi

s kind of human infiltration began. Because according to the biblical narrative, Genesis 6 was not just an ancient story about giants. It was the nearly successful corruption of the image, the violation of ordained boundaries. What were those ordained boundaries? Genesis calls them kinds. What does that mean? Well, cows were a kind. And in that kind, you had not only cows, but you had buffalo and you had other type of oxen. They're all part of a kind. You have a bobcat. Well, amongst cats, you have lions and tigers and all kinds of cheetahs and panthers. They're they're a kind. Well, amongst these kinds, you also had man. Man was a kind. And also, angels, believe it or not, were a kind. They had to have been created in the Genesis narrative for them to have been a kind. And they were created in the Genesis narrative. Uh again, I have other lessons that talk about this. I think the one that I I mentioned before will talk about this, but but this is the violation I'm talking about. the violation of ordained kinds and the beginning of a war against humanity

itself which would eventually lead to apocalypse judgment. Now think about that for a second. Everything that we saw or are seeing in Genesis 6 and following with the incursion of Nephilim DNA in the human genome and beyond would eventually create all kinds of havoc on the planet which led to the apocalypse. What was the apocalypse? The flood. That same story is going to reveal itself again in our time. But instead of the flood, it's going to be fire. Isn't there a song that says that? Not by water, but fire this time. Yes. It's also going to lead to the end of the world as we know it when Yeshua returns. So again, it's important that you track along with me here. Suspension of your disbelief is your only hindrance to u

nderstanding this. And I get this. I understand it when we consider just the possibility of giants. And how big were these giants? Well, Amos says they were as big as cedar trees. That means they're 100 feet. That alone requires suspension of my disbelief. Right? Because of the world that we live in. But if I were to tell you that there was going to come a time when aliens would visit the planet and try to become our friends and give us technology, if I told you that 40, 50 years ago, it would also be a challenge to your suspension of disbelief. Historically, there have been some theologians who have tried to excuse the sons of God. That word in the Hebrew is benea Elohim away. They've tried to excuse it away as being the sons of Seth. But there is absolutely zero biblical support for this. Additionally, every time this phrase sons of God, the nha Elohim, appears in the Old Testament, it is always a reference to angels. So why shouldn't it be here? So what's happening here? Angels, the watcher class, as Daniel calls them, were on the planet in those days. They're on the planet these days, actually, but back then they decided to fall and embrace human women and had offspring by them. Now, that throws in all kinds of questions. What do you mean angels have DNA? Well, yes. Remember, they are a created kind. And the only thing created that doesn't have DNA is rocks and dirt. Everything else that the father created, regardless of what it is, has DNA. So whether these angels fulfilled their sin through traditional methods or otherwise. It doesn't matter. The fact of the matter is these women were impregnated by angels, thus creating a kind that the father never intended. And we're going to look at that here in a second.

Nephilim corruption revealed

And again, I show you Matthew 24. As in the days of Noah, so also will be the coming of the son of man. So, we have to look forward to some version of what we're seeing in this typology for it to make sense. And that brings us to the Nephilim. The the root of that word being Nefal, which means the fallen ones. who were the Nephilim. Well, if you put any stock in the book of Enoch, and I do not as scripture, and I know that's going to make some of you really mad that I said that, but that's okay. I don't hold the belief that Enoch is Holy Spirit inspired text, but I do believe it's value. It's got a great deal of value historically. In the book of Enoch, we see him filling in the blanks in some areas that we don't see in scripture. So, take it or leave it. I'm just going to tell you what Enoch says in regard to the Nephilim. All the others together with them, that's the others being the angels, took unto themselves wives, and each chose for himself one, and they began to go into them and to defile themselves with them, and they became pregnant, and they bore giants, great giants. Verses 3-5, these Nephilim, which is the result of the union. So the what was born was Nephilim. The angels themselves weren't Nephilim. What they created was Nephilim. These Nephilim consumed all the acquisitions of men. And when men could no longer sustain them, the giants turned against them and devoured mankind. And they, these giants, began to sin against birds, beasts, reptiles, fish, and devour one another's flesh, and to drink the blood. Chapter 8, verse one. Easil was the name of one of these fallen angels. Taught men to make swords, knives, shields, breastplates, made known to them the metals of the earth and the art of working them. Samaza was also a name of one of them. Taught enchan

tments which is witchcraft and root cutings. What was the reason for the root cutings? Well, the root cutings was so that they could create hybrids of different plants, which is what they're all about. From top to bottom, the Nephilim were about creating hybrids because they were hybrid themselves. And I understand it's difficult for our 21st century minds to fully comprehend the scale of corruption attributed to the Nephilim and their overlords and ancient traditions. According to these historical sources, the corruption extended far beyond mankind alone. Not only was the human genome targeted, but even the animal kingdom was corrupted in an effort to distort and violate the Genesis Order of Creation,

where everything was made according to its kind. Some ancient traditions even connect these events to the origin of the mythological hybrid creatures found in pagan systems being depicted as part man and part beast such as the half man and half bull figures of ancient Greek mythology. So there are some that hold that Greek mythology as a whole with all of these half man half beast amalgamations be it a centaur or that woman with a snake head what was her name? Medusa, it doesn't matter. All have some truth to them in that it was a direct result of the Nephilim incursion trying to blend these things, trying to destroy 42 minutes, 1 second not just the image but every ordained order set in place in Genesis. Book of Josher, another extra biblical source that you may or may not put your faith in, says this. And their judges and rulers went to the daughters of men and took wives by force from their husbands according to their choice. And the sons of men in those days took from the cattle of the earth, the the beasts of the field, and the fowls of the air, and taught the mixtur

e of animals of one species with another, in order therewith to provoke the Lord. And God saw the whole earth, and it was corrupt, for all flesh had corrupted its ways upon the earth, all men and all animals. And then we have the flood. Now, if you're like me, we all grew up hearing that the flood was due strictly to man's sin. The man had sinned so much and so bad that the father decided to start all over. It's what we heard in Sunday school. It's what we heard from the pulpit. Genesis 6 says this. The earth was also corrupt before Yahw. And the earth was filled with violence. Whose violence? Mankind's violence. Well, yes, in part if they were in cahoots with their Nephilim cohorts, but no, the Nephilim were creating the violence as we saw. So Yahw looked upon the earth and indeed it was corrupt, for all flesh had corrupted their way on the earth. Now you have to ask this question. When Genesis 6 says all flesh had corrupted their way, was that just a fancy Hebraic way perhaps of saying everybody, the whole world? I don't think so. 44 minutes, 1 second I think it's intentional that Moses put the words flesh. The flesh of everybody had been corrupted. Corrupted by what? the strain, the DNA strain that the Nephilim introduced to the world. Remember how these Nephilim not just sinned against man but sinned against the beasts of the field and the birds of the air. When it says all flesh, it means all flesh had been in infected by Nephilim DNA by the days of Noah. The corruption unleashed through the Nephilim had spread throughout the entire earth. What does that make you think of? I remember the days when we were just talking on the news about this thing happening in Asia called the Corona virus. I remember a buddy of mine that we used to have and meet meet for breakfast s

everal times a week told me, "Hey, this is going to be a big deal. This could be a pandemic." And I blew it off. I laughed it off. And yet that's exactly what happened where the entire earth knew what the corona virus was in a matter of weeks. So much so that it changed our daily regiment around the world. And this is what happened in the days of Noah. The entire earth and their flesh had been corrupted by this tainted DNA, permeating both mankind and the animal realm, defiling the created order and corrupting the image and the kinds that Yahw had originally established in Genesis. As I'm going through this, I want you for a moment to be thinking about the mark of the beast. I'm going to walk us through that and what that looks like. But you should already be thinking that as I'm going through this story, Genesis 6. This is the genealogy of Noah. Noah was a just man, perfect in his generations. Noah walked with God. Stop. perfect. According to my Bible, there's only one that's perfect. Noah certainly wasn't yet. We see later that he he gets drunk and passes out. So, how's he perfect? Unless there's something more to this verse. The Hebrew word translated perfect in Genesis 6:9 is tamay, meaning without blemish, whole or undefiled. Same word used for of acceptable sacrificial animals. Combined with the phrase in his generations, the text points beyond mere moral conduct and emphasizes that Noah remained quote uncorrupted in his lineage and descent while all flesh on the earth had been corrupted. So I believe that what the text is telling us here in Genesis 6 is that Noah was not affected by Nephilim DNA. And it stands to reason that if Noah was not corrupted, then his sons were not either. Although the scripture doesn't actually tell us that for certain. But what about h

is son's wives? Why do I ask that question, Tim? Do you know why I would even ask that question? Yeah, because we're descendants and uh or many people are descendants of the only people left, his wives. That's true. But I think more importantly is if the flood was in part due to the Nephilim incursion and the father was trying to wipe it all out. And how do they show up on the other side of the flood? Right? Well, there's two beliefs in this regard. Um there are some who believe that there was a second incursion. That's just not recorded in scripture. I don't take that position. I I believe

what we're looking at here in the screen now is that the- the scripture is telling us that of the people who crossed the flood, the of the eight, more than likely it was Noah and and perhaps his wife and their sons that were not affected, but perhaps the wives of the sons were. There are many that conclude that uh residual corruption survived through one or more of the wives aboard the ark in a more diminished form. Meaning they weren't Nephilim, the women themselves, but they could have been carriers of the strain. They could have been somehow a carrier of the of the DNA that belonged to the Nephilim. I think that's more likely than a second incursion that's not recorded in scripture. doesn't really matter. At the end of the day, we find Nephilim on the other side of the flood. Now, when we get to the other side of the flood, it appears in my eyes that the Nephilim are considerably smaller than they were in the days of Noah. Perhaps that's because of the diminishing DNA, the quality of the DNA as it goes through generation to generation. And these beings go from being as Amos said as big as Cedars down to the days of David when he's fighting Goliath and he's 10t tall. So in in my wh

at I think I'm seeing is this degradation of the DNA uh through time. But we do see them on the other side of the flood, which would make a lot of people, including myself, ask, "Well, why why in the world would God go through all the work of flooding the earth just to have them reappear on the other side of of the flood itself?" Well, I explained in my giants video that I believe the father wanted to use these beings as a rod of discipline for Israel. And that's exactly what we see. Well, let's continue. I'm digressing, I think. So, cosmic corruption after judgment.

Cosmic corruption and spirits

How how did this happen? Here we see on the screen an image of Noah and the whole family with Ham kind of walking in front and he's got this kind of a devious look in his eyes. And you know, we know the story, right? We know what Ham did to his father. Incursion through cursed lineage. What does that mean? Well, it's believed by some that the first incursion of uh Nephilim came through Cain's cursed line of people. Genesis 4 shows Cain's descendants as developing violence, polygamy, boastful bloodshed, and worldly advancement apart from Yahw. That's what that's what Genesis 4 records in Cain's line. One of Cain's descendants was a person named Tubalcain. And Tubalcain lived in the days of Jared. So these things line up. Even though the text doesn't come out and tell us verbatim, these things line up that give nod to the possibility that this incursion happened through two cursed lines. First Cain, then Ham Lomch and not the Lomic of uh Adam's line or I should say Seth's line, but Cain also had a Lomic in his line. Lomic especially becomes a picture of intensifying wickedness. Genesis 4 says, "Lik said to his wives Ada and Zilla, hear my voice. Listen to my speech. For I have killed a man for wounding me, even a young man for hurting me. If Cain shall be avenged sevenfold, then lame 77fold. So we see this increasing violence in Cain's line, leading many to believe that the first incursion of Nephilim happened within that line of human beings. Well, we also know that Ham was cursed as a result of what he did to his dad. Genesis 9 tells us the story of Ham's sin, an eventual curse. He goes on, Noah says, "Noah woke from his wine and knew that his younger son had done this to him. And then he said, cursed be Canaan." Now, it doesn't say, "Cursed be Ham." It says, "Cursed be

Canaan," who was Ham's son. So Noah is cursing the lineage from his son down. What do we learn from this? Well, it was from that lineage. It was from Han's line where we see the rise of the Nephilim in tribes like Canaan, Kush, Mitzam, which became Egypt. The Amorites, Hittites, Amorites, Jebusites, Hivites, Perizzites, Gegosites. Most of those tribes were the tribes that Israel wared against. Why were they waring against those tribes? I think it's because of the strain of Nephilim coming back into the world. As a matter of fact, you need to understand the reason for a couple of verses. Deuteronomy 20. But the cities of these people, which Yhovah your God gives you as an inheritance, you shall let nothing that breathes remain alive. You shall utterly destroy them. The Hittite, the Amorite, the Canaanite. He gives the same list. Don't let these anything remain alive. What does that mean? When he says nothing, what does that mean? It means nothing. Why would the father tell his people to do such a thing? What about this verse? Heal both man, woman, infant, and nursing child, ox and sheep, camel and donkey. What? Why would the father give such a command? Is he a baby killer? No. He is telling Israel to eradicate the DNA, eradicate this Nephilim strain that is in humanity and these tribes carried it. That's how we make sense of difficult verses like this. When we consider the totality of the Nephilim

impact on the image, what you're seeing on the screen, these are not aliens from space. Do not be deceived. They are avatars carrying the demonic spirits of the dead Nephilim of the past. They may arrive in a what looks like a spaceship. That's part of the grand deception. But they are not of space. They are of Earth. According to first Enoch and reflected in the portions of s

second temple Jewish thought, the Nephilim occupied a unique category of existence that was neither fully heavenly or fully human. This is why their spirits are portrayed differently from both mankind and the fallen angels themselves. The watchers were heavenly beings. They were angels, human women, obviously earthly. Their offspring, the Nephilim, were an unlawful hybrid that Yahw never ordained within the creation order. In the Enochic understanding, these created beings, these created beings did not properly belong to either realm. They weren't fully heavenborn and they weren't fully earthborn and certainly not part of Yahw's intended creation order kinds. That becomes the basis for why their spirits once they die are described as wandering the earth after they die. They have no place to go. There is no hell. We should know that, right? There's no dungeon down in the bowels of the earth where these things could go after they die. If you want more on that, watch my lesson on heaven and hell. So, what did they do? They wandered. What does Enoch say? And now the giants who are produced from the spirits and flesh shall be called evil spirits upon the earth. As for the spirits of heaven, in heaven shall be their dwelling. But as for the spirits of the earth which were born upon the earth and on the earth shall be their dwelling. So here Enoch is telling us what evil spirits are. What's another word for evil spirit? Demon. Now there are other learned men who believe that demons are fallen angels. The angels that fell with Satan in the beginning. I don't believe that. Why don't I believe that? Well, I don't believe that because angels have bodies. There's no 58 minutes, 1 second reason for an angel to seek a host. Who needs to seek a host? A being that has no body.

And these avatars that you see on the screen were created, I think, believe using human DNA so that they could inhabit these hosts. That's exactly what Enoch says. Yeshua says they are unclean spirits, demons, evil spirits. Those are the words he uses for them. We can't be deceived as to what's coming.

Future AI and the mark

Then finally, I want you to remember the typology. Again, Matthew 24, but as the days of Noah were, so also those those two little words right there. A lot of people think that what Jesus was saying, what Yeshua was saying at this moment was, "Oh, you know, he's just saying that people won't be aware. They're carrying on eating and getting married." Yes, that's true. But so not all there is to the story when you understand the days of Noah. In the days of Noah, Satan infiltrated the human and animal DNA in order to escape his destiny, the seed of the woman destined to crush his head. What's coming will be no different. With the entrance of intelligent artificial intelligence, that's redundant, sorry about that, into our world, which we all knew was coming. The next logical step once the the AI is here is to do what? is to join this technology with human anatomy. What? What do you mean by that? Oh yeah, it's already here. Neuralink. Many videos of men like Elon Musk declaring that this is already happening where we are combining AI with human anatomy. The mark of the beast will not be a stamp or a tattoo alone. Nope. Guess what? It's going to be a marker in your DNA like the Nephilim that declares your allegiance to the new system. And just as the world rushed to accept chat GPT and Grok and the rest of all these AI platforms, they will rush to get in line for this newest of technologies. The promises not only to enhance your life, but to extend your life, maybe even eternal life. You can't be deceived. It will more than likely be introduced by these quote unquote visitors from space. Now, let's before I go on, some of this stuff that I'm telling you about the future is Ed Doss's opinion. So, I want you to understand it for what it is. Look at it with wisdom. Don't

look at it as Ed says thus sayeth the Lord. I'm trying to make sense of this myself just like you are. But here's how I see it. It will more than likely be introduced by these quote unquote visitors from space. What introduced the mark 1 hour, 1 minute, 7 seconds who planted humans on this planet 6 million years ago or 10 million or whatever it is. Who have returned to take us into our next step of human progression. 1 hour, 1 minute, 17 seconds Oh, and by the way, they've also come to warn us, to prepare us from this other alien who they know is coming. 1 hour, 1 minute, 28 seconds and

his purpose is try to stop your progression. He wants to shut it down. 1 hour, 1 minute, 32 seconds So these gray guys will rally the nations of the world against this coming being to war against him. 1 hour, 1 minute, 44 seconds H who's the coming being? It's Yeshua. 1 hour, 1 minute, 49 seconds Revelation 17 10 horns which you saw are 10 kings who have received no kingdom as of yet. 1 hour, 1 minute, 56 seconds They receive authority for one hour as kings with the beast. These are of one mind, and they will give their power and authority to the beast. These will make war with the lamb, and the lamb will overcome them. Have you ever stopped to think the scriptures tell us, not just in Revelation, but in Zechariah and other places, that when Yeshua overcomes, the nations will be unified in war against him. Doesn't that just blow your mind? How does that happen? How do you get a world with so many Christians and so many Jews and so many quote unquote godbelieving religions? How do you get these nations to all of a sudden turn and stand in opposition to the second coming of Christ? How? This is how you have a incursion of Nephilim disguised as aliens coming to help us, coming to save us, w

ho warn us of this coming bad guy. They won't ever say his name, of course, and they will get the nations of the world to oppose Yeshua. Do not be deceived. The full disclosure will not be full disclosure. It will be meant to deceive you. Now, I know that some of you are still sitting in there with some disbelief. That's fine. I get it. But I want to hear your story. If you do, if you think I'm nuts, if you think this is all fantasy, okay, that's fine. Uh I want to hear every every one of your thoughts. rebuttals, rebukes if you think I need them. You know the drill.

Viewer discussion and closing

Let's see. Um, brother Kendrick Shalom. Um, I disagree with nothing that you have said. Um, except that unclean spirits uh were created here on earth through the death of the Nephilim. That's for another topic. Um, but everything that you said, what people don't realize is that NASA was created Thank you so much. for I muted. Go ahead. A lie. All right. They they were created to perpetuate the lie. If anybody's ever been to uh KE National Observatory or KEK National Observatory, um every image that they get through their telescopes is digitally enhanced. So they're looking they're not actually looking through a telescope. They're looking at a screen that digitally interprets what they're looking at. I on the other hand had the privilege of back in the as the early as the early 2000s of working on a guy's house in East Hampton who had an observatory on his property. It was a rotating dome. It it it was a sit-down telescope and we looked at, you know, Saturn, Jupiter, all of these things. And they looked like blobs of light. They didn't look like Saturn with the rings and all of these things. They just they look they they look completely different than anything that you've ever seen in a textbook or in any printed version. So that said, we're being lied to um at every turn on every angle because the 1 hour, 6 minutes, 1 second last thing they want us to believe in is a creator. So all efforts I mean NASA's budget is \$56 million a day. Think about that. That's \$20 billion a year to deceive humanity. And NASA is the quote unquote go-to for all things space related. As far as extraterrestrial life, I don't believe the Earth looks anything like they're telling us. I believe like you do, it's a flat, it's a fixed point in the universe. God created the heavens and the earth.

He created heaven first, then the earth because all the sons of God rejoiced in its creation. So I believe heaven was created first, heaven second. Uh heaven was created first, earth second. I believe that extraterrestrial just means out of earth. Our argument is that earth is the fixed point and everything is revolving around us or above us. Well, amen, bro. I appreciate your your thoughts. I I'm going to cut you off. We got we got to make room for we're getting late. I appreciate it. Thank you. All right. Thank you, Daria. I want to also share something uh completely different. So, just going turning the page. Um well before I uh be before I u was kind of awakened when I uh this uh 15 years ago when I came back to the lord three years ago uh I was uh I was actually for about a year I was listening to teachings uh I don't know if you are familiar with Amanda Bryce She is uh helping the S um uh to survivors which are satanic uh ritual abuse people. So she is helping them and this what is going on is actually in this spiritual world. Uh that yes they are there is one testimony of one girl from uh Holland and she was raised by a nephilim and she was actually u she was programmed and she was a mermaid. You know there are also like there are also mermaids. Uh that that is something like you know you have even the fairy tales for children and Disney is very very evil and this kind of like you know the the mermaids and things like that. This is actually from the real world. They are just making a net a fairy tale for children and that

these children are actually hook hook wind hook in uh bit I don't know sorry anyway what I wanted to share with you that's also from the teaching of Amanda B is not from me but she has actually discovered something and I want to share with you

and leave it to you if you agree with that or not Because they in Hebrew, yeah, in Hebrew is written and just as it is appointed for men to die once and after that judgment. Okay. Then in uh the revelation it written that the uh the antichrist and the uh the false prophets they were thrown to the uh lake of fire straight away. So they were not being judged. It means that these two might be kind of you know not 100% uh humankind. in the in my opinion they will be uh kind of nephilim uh you know uh the my antichrist and the uh pro the his prophet the prophet the false prophet they might be an affilim uh among us that will actually do the service to Satan that's what I wanted to share you can just think about that why it's written that they were straight uh to def put to fire and they were not going to be judged stand in front of the throne of God. That's what I wanted to share. Well, thank you sister. I appreciate that as always. Um, Laura wanted to bring up the one of your previous videos that I also had commented on about heaven and earth and the throne of God and the color of the throne of the floor of heaven and the color of our sky and um I completely and totally disagree with brother Kendrick u because there's so much support in the scriptures you had mentioned there's three fundamental components uh time that matter. We don't get any other uh outer space or any of that information. That's all all that stuff's made up. So if we have time in the beginning and space being heaven and matter being earth, we have to uh um uh come to a conclusion right now. That's all there is. The scriptures talk about um the pillars, the pillars of the earth are for the Lord and he set the world on them. And I really and totally believe that God hammered out what is now called the Van A

llen's belt so strong and that's where he placed um the stars. Uh that's where he has an uh the moon and the sun. Maybe not in the firmament, but the stars, it talks in the scriptures that the the stars are in the firmament. And um the firmament separates the heavens from the earth. There's so much stuff that um brings us to conclusion that the circle of the earth the circle of the earth um and like if we are going to believe everything that science tells us I nothing I believe everything that you did today but when you look at NASA and you put a snake head at the top of its insignia which is a circle it says NASA with two red lines. Those two red lines are a forked tongue of a snake. And everything that comes out of NASA, all the evidence, all the proof, all the science is uh constructed. It's a construction to deceive. NASA is one of the biggest deceptive organizations that this entire planet not it's not a planet this entire earth has um been deceived by and then we have to ask ourselves when we talk about um when we talk about those three elements who laid this foundation of the earth who is in the heavens and we have to follow him because this deception is everywhere. It is everywhere. They are trying to lead us away. They even have a movie. I don't remember the name of the movie, but it says in the movie um that the people that that uh they are against are the ones that um uh um honor the Sabbath. And so like once it goes out on a not a documentary but a movie, a video from Satan's world, it's like they have to they have to tell us what they're doing before they do it basically. And they use films and the film industry and all that stuff to warn us that this is what they're going to do. And um I just I just think that um we should actually look further and deeper

into scripture. Yeah. Scripture. Exactly. Scripture. Exactly. But I'm just talking about like where we live on this earth and what it really is and our like why would Nimrod build a tower to kill God if God wasn't right on the other side of where he was trying to get to. Do you know what I'm saying? I just I just and also Yeah. I to I totally do and I totally agree with you sir. I the one thing I don't want our conversation to turn into today is a you know an argument about flat earth or anything like that. Yeah, I don't Yeah, I agree with you 100%. Says the earth is unmovable. God made it a firm. Where did I put that? Uh the earth shall not be moved. It says it in Psalm uh in 93104 who laid the foundation of the earth that it should be moved in 1 Corinches. He stamped it with a seal. Anyways, I I just want people to maybe you could do another video because you do really give excellent discourses. I really I'm very I'm very privileged to be a part of this community and I really appreciate all of the teachings. Well, thank you, sister. I appreciate that. And maybe I will. Maybe there'll be a part to you down the road. But it definitely has to be some kind of clarification on this scripturally. Amen. Amen. So, thank you. Okay, brother Rambo, you're up next. Okay, thank you so much. Do we get to see your face or No. No, I don't have a camera on my computer. Oh, okay. Yeah. Um, but if I can figure it out later, I'll try to get like a family photo or something up. Um, so anyways, first of all, I want to thank you for for tackling a difficult topic like

this. Um because I like yourself was raised dispensational and they completely blow out this whole topic and just ignore it. Um but I want to touch on something that I think is very important and you always hound on this which

is scripture defines scripture. And I know it's easy for people to say, "Oh, look, the mark of the beast is going to be this or that by going with outside things." I mean, you remember in our youth, cuz we're about the same age, that it was the barcode was going to be the mark of the beast and we were all going to have barcodes on our foreheads and hands and blah blah blah. Yeah. And it was the debit card and all kinds of stuff. I and I I caution everybody that the shift, yes, DNA corruption is probably part of the enemy's plan. But again, when it comes to the mark of the beast, scripture needs to define scripture. And before somebody can understand the mark of the beast, they have to understand what the mark of Yhovah is. The mark of Yhovah according to Deuteronomy and Numbers is the Sabbath. When we walk in obedience with the Sabbath and his other commands, we have the mark of Yhovah upon us. What happens is the world that chooses either to follow the mark of the beast on earth, the Roman Catholic Church and all her daughters that do Sunday worship, they either have it in their hand, which is well, everybody has it in their hand, which is knowledge according to scripture, but there are those in leadership who have it on their forehead. head. They know what they're doing. They know that they are following the Roman Catholic doctrine which goes back all the way to Babylon. And so when you understand scripture, the mark of the beast is in the world today. And it wasn't until my wife and I made the commitment as Joshua says, you know, choose this day whom you will serve. As for me and my household, we will serve Yhovah. Because we walk in obedience with him, we no longer have the mark of the beast upon us. But for the rest of the world, they have the mark of the beast on

them. And the mark of the beast has been in the world because it's the mystery of iniquity that Paul talks about in his day in the first century. The mystery of iniquity was already at work, right? That was the mark of the beast. So the mark of the beast is here and our mission is not to go out and prostitute to get people to join a church. Our mission is to create disciples who follow Yhovah, keep his word, keep his instruction so that they no longer have the mark of the beast upon them. Right? So that was kind of what I wanted to interject and to encourage everybody who listens to this to go and study this in scripture for yourself and I believe that you too will come to a similar conclusion to what what I have and that you don't need to be worried about oh is the COVID vaccine the mark of the beast is RNMA the mark of the beast is whatever because scripture has told us clearly what That is how if we are walking in obedience to him, we can never have the mark of the beast. And it will be natural for us observing Torah and staying true to Yhovah that we will never be willing to accept that mark. Thank you for your time. All right. Thank you, brother Rambo. Appreciate your thoughts and input. Okay, Candace, you are up. wanted to bring up that um like the alien abductions that happen the majority of those people are always experimented on sexually. So that would go in with uh the Nephilim and at the same time there have always that there is also been accounts where people have called on the name of Messiah and the abduction has immediately stopped. So, I just wanted Amen. Thank you. Okay. Thank you, dear. I appreciate you. Okay, Marian, you're up. But you got to be brief, sister, because we are running long. Before we go, I would like to ask for prayer. Um, yes. So,

I grew up in an alcoholic home and I used to see things all the time. My sisters did as well. And um I feel like I have been chased my whole life by the enemy just trying to kill me. There's been many many instances of that. And then also as a nurse um I did psychiatric nursing and I I I was spiritfilled. I mean whether people believe it or not um as a Catholic charismatic and uh was very concerned about what spirit I was going to get. But I really feel like the Lord has held my hand my whole life. I've wandered. I've done a lot of stuff. But aside from all of that, this cancer that I was diagnosed with last year, the original PET scan or CAT scan showed, and this is going to sound nuts, it it showed a cancer that had two horns and a tail. And it is a lung cancer that has an uncommon mutation. Now, I know as a medical person that cancer is a metabolic disease. I have I don't drink. I don't do drugs. I've eaten well for years. I follow the Lord. He was the one that led me to keep the Sabbath. He He did it himself. And um and I've been doing it alone for for a c for for two years, two and a half years. I've lost count. So, I know he's with me in all of this, but I don't know what to do with this other piece that um pops up regularly. And um and that so I'm just asking for prayer from everyone that um that whatever needs to be corrected is corrected. I have seen I have seen unclean spirits in a person and with my eyes just um they could see the authority that God has given. And so they left that person and went to another one who had a

panic attack immediately. and I was able to pray with that person and um and the thing left left the home. So, it doesn't happen all the time. And I'm, you know, I don't think I'm a weirdo, but I I just I'm asking for prayer because in this cancer thing, I I feel like the the enemy is still trying to kill me. And um that's all I have to say. Sorry. Well, amen, sister. I appreciate that. and we will pray for you. And by the way, you are a weirdo as we all are. Remember, we're strangers in this land uh in a land we don't belong in. Just passing through. Guys, listen. Pray for Marion and pray for others who are in need in this group um as they've expressed those needs. And um man, it's been good to see you today. Feel like a breath of fresh air just being with you guys today. And I I pray that you have a fantastic rest of your Shabbat and a fantastic week. And I'm looking forward to your phone calls because you didn't want to share in this group, but you have questions. Anyways, so I'll be fielding some of those. Have a great week, guys. Shabbat shalom. Shabbat shalom. Shabbat shalom. Shabbat shalom. Shalom. Shalom, guys. Shalom. Shalom. Shalom. Pray for you, Marian. Thank you, Marian. Pray for you. Thank you. Praying for you, Marian. Thank you. I don't know how to get off this thing. just leave at the bottom. It's okay. I'll disconnect it here in a second, guys. All right. Thank you. Okay. Shabbat shalom, everyone. Good to see you all. See you.
